Shriners Hospitals for Children-Houston is a pediatric specialty hospital, within the world renowned Texas Medical Center, with an immediate full-time physical therapist position open in the inpatient rehabilitation and sub-acute program. This position will allow you to encounter and treat pediatric patients, age birth to 18 years old, with a variety of complex neurological and orthopedic diagnoses including but not limited to cerebral palsy, SCI, TBI, osteogenesis imperfect, spina bifida, arthrogryposis and amputation. A team approach is emphasized as the candidate will work side by side with other members of the rehabilitation team, nursing and physicians. As Shriners is a hospital dedicated to rehabilitation, therapists are highly regarded for their opinion and expertise. Shriners also offers a plethora of educational opportunities through the form of CEU support, in-services, journal clubs and grand rounds. The ideal candidate for this position has experience in pediatrics and neurological/rehabilitation background, although not required. If you are looking for a rewarding, challenging and dynamic career working in a collaborative and supportive work environment, join our team!

Facts about TMC: largest single employer in Houston, largest medical center in the world with 50 member institutions, complex is larger than downtown Dallas, has its own zip code, more heart surgeries performed than anywhere in the world, home to M.D. Anderson Cancer Center the world’s premier cancer treatment and research hospital.

According to Forbes magazine, Houston is ranked first among U.S. cities where paychecks stretch the furthest.

Interested candidates could submit their resume to HoustonHR@shrinenet.org. To be qualified, you must be licensed or eligible for licensure in the state of Texas. Completion of the American Heart Association Basic Life Support for Healthcare Provider must be completed within 30 days.
