Full-Time Physical Therapist for Motion Analysis Laboratory

Shriners Hospitals for Children-Houston is a pediatric specialty hospital, within the world renowned Texas Medical Center, with an immediate full-time physical therapist opening in our Motion Analysis Laboratory (MAL). The MAL at Shriners Hospital is one of the most established MALs in the state and we bring state-of-the art technology and nationally recognized expertise to the study and treatment of mobility-limiting conditions including cerebral palsy, stroke, traumatic brain injury, spinal cord injury, amputations, hip dysplasia and clubfoot. Through the use of kinematic, kinetic, EMG, pedobarograph and metabolic data, the MAL PT’s purpose is twofold: to provide information to our medical team for the purposes of treatment and surgical planning and to assess the outcomes post-intervention. Our MAL is also committed to providing top quality research in order to advance the body of knowledge in the realm of motion analysis and movement science. Added benefits are that Shriners offers a plethora of educational opportunities through the form of CEU support, in-services, journal clubs and grand rounds. The ideal candidate for this position must be experienced in evaluation of gait, have experience with pediatrics and be comfortable with use of technology and computer systems. If you are looking for a rewarding, challenging and dynamic career working in a collaborative and supportive work environment, join our team!

Facts about TMC: largest single employer in Houston, largest medical center in the world with 50 member institutions, complex is larger than downtown Dallas, has its own zip code, more heart surgeries performed than anywhere in the world, home to M.D. Anderson Cancer Center the world’s premier cancer treatment and research hospital.

According to Forbes magazine, Houston is ranked first among U.S. cities where paychecks stretch the furthest.

Interested candidates could submit their resume to HoustonHR@shrinenet.org. To be qualified, you must be licensed or eligible for licensure in the state of Texas. Completion of the American Heart Association Basic Life Support for Healthcare Provider must be completed within 30 days.
